Re: HSRA Release Notification, Atlanta Metal, Inc.
75 Airline Street, Atlanta, Fulton County, Georgia

Dear Mr. Golsen:

Pursuant to the Rules for Hazardous Site Response, specifically Rule 391-3-19-.05(1) "Listing on the Hazardous Site Inventory," the Environmental Protection Division (EPD) has evaluated the above referenced property to determine whether a release exceeding a reportable quantity has occurred. As EPD has determined that a reportable quantity has not been exceeded in groundwater and the on-site pathway evaluation has been deferred, this property will not be listed on the Hazardous Site Inventory.

The on-site pathway evaluation has been deferred due to EPD's receipt of a prospective purchaser corrective action plan (CAP) for this property pursuant to the Hazardous Site Reuse and Redevelopment ("Brownfields") Act. Upon approval of the CAP and sale of the property, the purchaser will conduct soil cleanup under oversight by the Brownfields program, in accordance with an approved schedule. The on-site pathway will be evaluated after the soil cleanup is complete, unless EPD determines that the release requires an evaluation sooner.

This evaluation was made on the basis of current site conditions and information available to EPD, including your notification dated October 3, 2007 (see attached documents). Should you become aware of information different from the conditions described in the attached documents, you are required as the owner of the property to notify this office. Subsequent owners will also become subject to this notification requirement; therefore, copies of this letter and the attached documents should be provided to any party or parties to whom you transfer ownership of this property in whole or in part.

Please direct questions regarding this matter to Mr. Abebi Stafford of the Hazardous Sites Response Program at (404) 657-8600.

Sincerely,

Alexandra Y. Cleary
Program Manager
Hazardous Sites Response Program
