

**SYNOPSIS OF
PROPOSED AMENDMENTS TO THE RULES OF THE
DEPARTMENT OF NATURAL RESOURCES
ENVIRONMENTAL PROTECTION DIVISION
RELATING TO WATER WELL PUMP INSTALLERS,
CHAPTER 391-3-29**

DNR proposes repeal of Chapter 391-3-29 Rules for Water Well Pump Installers in its entirety.

STATEMENT OF RATIONALE

In 2003, the DNR Board adopted Rules For Water Well Pump Installers, Chapter 391-3-29 to carry out responsibilities under authority of the Water Well Standards Act (Act). Subsequent amendment of the Act gave authority to regulate water well pump installers to the Water Well Standards Advisory Council in 2003. Because EPD no longer has authority to regulate water well pump installers DNR proposes to repeal Chapter 391-3-29 in its entirety.

The proposed repeal does not have any associated scientific research and does not require any additional EPD staff or budget increase or impose any additional burdens on local governments.
